## *Joys, Concerns, & Sympathies*

### *Concerns*

Word has been received that **Lynn Lenoci**. Cuer Scott Vallee's partner, has been in and out of the hospital for the past few weeks.

She originally went into the hospital on May 19<sup>th</sup> for a heart valve replacement. All of that went well and she was in the hospital for two weeks. She left the hospital on May 21<sup>st</sup> but was re-admitted to the hospital on the 22<sup>nd</sup>.

They believe she got E-coli after eating at Wendy's. She was taken to the Emergency Room and was admitted to the hospital on 26<sup>th</sup> and wasn't released until the 28<sup>th</sup>. She was in Intensive Care for three days with a severe intestinal infection.

She's doing a lot better but tires quickly, which does not allow her to dance for but for a short while if at all, and she gets cold quickly due to some of the pills she is now taking. A slow process and hoping things continue to go well.
